# About the Foundation

“Like” us on Facebook - Mississippi Burn Camp Foundation

The Mississippi Burn Camp Foundation offers a free camp for young burn survivors ages 6—17. Campers age 16 & 17 will be recommended for CIT (counselor in training) program. Camp is staffed by volunteers and funded by donations and grants. All proceeds go directly to the camp operations & activities; there are no paid personnel.

A scheduled “tour & fun day” is available for children under 6 and their parents to experience camp. Please contact us to sign up.

We are staffed entirely by volunteers that include firefighters, nurses, healthcare workers, teachers and others. The camp is offered at no charge to the participants and includes food, lodging, activity supplies, camp T-shirts and a week of fun, friendship and entertainment.

## MS Burn Camp Foundation Mission Statement:

The mission of the Mississippi Burn Camp Foundation is to provide campers a safe, supportive, life changing experience that encourages comradery while developing self-worth and overcoming anxieties thus helping them to be happy and healthy young people

## Activities

Activities typically include: canoeing, swimming, handicrafts, fishing, skits, competitive activities, nature hikes, horseback riding, and a ropes course (a confidence building activity). There are also presentations and visits by special guests.

The camp program is designed to offer special summer camp opportunity to young people who have survived injuries from burns. Bringing survivors together, allows them to share common experiences through playing and exploring life together while not feeling self-conscious about what others may be thinking of their scars. The camp will give these young people an opportunity to make new friends and realize they are not the only ones with burn injuries.

## Camper Qualifications

The fundamental requirement for application and approval for camp attendance is that the child has suffered a burn that has required a Doctors care; overnight hospital stay is not a requirement. All applicants must have medical approval by a doctor prior to camp attendance and participation.
